Tea and the Technology

We are trying something different this semester. *Tea and the Technology* will be a casual early morning sit-down to discuss Technology over a nice cup of tea and some pastries.

I'll have information on at least one new App to share with people.

If you have a technology question, this will be a great place to ask it. Do you want to do something different with Canvas? Come talk and let's see what we can do. Do you just want something warm to drink on the way to your office? We've got that too.

This will be a chance for everyone to share. The more people who can stop by, the more interactions we can have. We are all in this together. Come and talk.

Tea and the Technology

February 13, 2018

7:30am to 9:00am

Holt Gallery in front of the 21st Century classroom

Our intention is to have a second Tea during the semester.

Canvas

Adding a TA to your course.

Adding a TA or other individual in Canvas is an easy process. Just send an email to: kevin.henry@principia.edu containing the following information:

Persons name, the course to be added into, the role you want them to have, (IE Student, TA, Limited TA (no grade access) or Teacher) If you don't specify a role I will add them as a student.
